- ◇ Drill-down capabilities let you view details instantly
- ◇ Unlimited sorting, and sorting on groups with user-defined sequences
- ◇ Instant distribution via fax or email
- ◇ Compatible with most 3rd Party products

Crystal Reports for Adagio combines the ease of use of Windows with the most powerful report writer available. The industry-standard *Crystal Reports* engine behind Crystal Reports for Adagio offers unsurpassed power and flexibility. Standard Windows GUI interface features, like right mouse button menus, Report Wizards, cut, copy and paste commands, mean you can produce professional looking reports in minutes with the click of a mouse.

Crystal Reports for Adagio offers all the formatting capabilities of Windows. You can insert objects like your company logo, and present your reports in a variety of fonts. Crystal Reports for Adagio also enables you to generate 12 graph styles, providing you with an easy way to visually summarize information.

Crystal Reports for Adagio has been specifically designed to access data from most Adagio and 3rd Party products, letting you use your familiar environment for data entry, and use the powerful formatting capabilities of Windows for data analysis and display. No other Report Writer gives you the best of both worlds — familiar accounting, and Windows power, flexibility and ease of use.

Check out the great new print utility we've added to Crystal Reports for Adagio!

- Adagio PrintTool is a free utility that lets Crystal Reports for Adagio users print reports without having to run Crystal Reports itself.
- Cheaper than purchasing additional copies of Crystal Reports for Adagio when multiple users need to print (but not create or modify) reports.
- A simpler way for users to print reports than using the Crystal Reports designer
- Select a report to print/preview from a list of all your reports, showing report title, filename, author, subject and comments
- Automatically does a "Set Location" when printing reports from multiple company databases
- Allows reports to be placed on the desktop
- Provides the basic functionality of the Compiled Reports feature found in Quik Reports for Windows.
