

***Do you have personnel who need access to your Adagio® or ACCPAC® Plus accounting data, but you'd really rather they didn't have the accounting programs themselves? This is what Adagio GridView is all about.***

Since GridView is "read only" you don't have to worry about bad things happening to your accounting data because of untrained (or untrainable!) operators.

Here's how you can use GridView:

- ◇ Executive snapshot of Current Receivables, Payables, Orders, Invoices, Cash (from the GL)
- ◇ Comparison of current expenditures to budget amounts
- ◇ All items on backorder in OE, with quantities on PO and on hand in IC
- ◇ Views of Customers, Vendors, Inventory Items, GL Accounts
- ◇ Salesperson view of Customers  
Customer Balances and transaction views
- ◇ Project Manager's view of jobs from Job Costing
- ◇ Recent Invoices by Customer in OE
- ◇ Recent Invoices by Customer in Invoice History
- ◇ Recent Sales by Customer in Sales Analysis
- ◇ Recent Prices by Customer
- ◇ Recent Invoices by Vendor
- ◇ A customizable telephone list of Customers or Vendors
- ◇ Export selected information to Excel
